Welcome to Bruce Jones Design's collection of Clip-Art Maps. This collection brings together 3 Bruce Jones Design Clip-Art Map collections: World Maps, USA State-by-State and World Hot Spots into one unique Apple IIgs map collection.

Beginning

This collection is contained on 3.5", 800K floppy disks. Before you begin using Bruce Jones Design's Clip-Art Maps make a backup copy of the disks. If you have a hard disk in your computer you may want to store working copies of the maps there. Master disks should be locked and stored in a safe place. If for some reason your backup copy becomes damaged you can go back to the master disks and make a new copy. Use your backup disks to make working copies. You may also want to keep your backup disks locked so that you do not unintentionally alter your maps.

To backup your Clip-Art Maps click once on the map icon with the pointer, hold down the Mouse button and drag it onto your hard or ram disk, release the Mouse button and the file will copy. Several files can be selected and copied at once if you hold down the Shift key while selecting them with the pointer. These files can then be copied onto a new disk for storage or for a working copy. Remember you are only allowed to make copies for backup purposes.

Bruce Jones Design maps can take up a lot of available hard disk space. We advise that you copy only the maps you need for your current projects.
